

11/11/86 - p. 3

Males

1. Hermer - MM-85-724
2. Dark Grizzle - FTA-85-3854
3. Dark Grizzle - FTA-85-3853
4. Blue Bar - FTA-85-350
5. Blue Bar - FTA-85-340
6. Dark - FTA-85-3897
7. Dark Check - FTA-85-344
- Dark - FTA-86-1207
- Dark Check - FTA-86-1213
- Dark Check - FTA-86-1214
- Dark - FTA-86-1215
- Dark print - FTA-86-4203
- Dark Check - FTA-86-4213
- Red - FTA-86-4218
- Dark print - FTA-86-4217
- Dark print - FTA-86-4220

Females

1. Thibe - no band
2. Dark - FTA-83-695
3. Dark - FTA-85-343
4. Yellow White - FTA-85-318
5. Blue Bar - FTA-85-3877
6. Red - FTA-85-3884
7. Grizzle - FTA-85-3869
8. Grizzle - FTA-85-3871
- Red - FTA-86-1208
- Mottle - FTA-86-1211
- Dark - FTA-86-1212
- Gray - FTA-86-1219
- Dark - FTA-86-1217
- Dark print - FTA-86-4205
- Red grizzle - FTA-86-4206
- Red grizzle - FTA-86-4208 ← male
- Gray grizzle - FTA-86-4216

as it starts now,
I will establish
a breeding pair
in 1987:

- 344 + 695
3897 + 318
3853 + 3884
3854 + 3871
350 + 3869
340 + 3877

— and I will
do so on

January 29, 1987
(July's
birthday)

one of
these
is turn
out, was
male.

11/11/86 - p. 4

When shall the breeding pairs be put together?
about 2 months after the eggs are laid, the young
birds are ready for serious flight training.
Within two weeks of pairing, both eggs are laid,
which means that about 10 weeks before
the projected commencement of serious
flight training, the birds should be
paired. If April 1st is the target date,
the birds should be paired on Saturday,
January 29, 1987. Who shall those pairs
be? On 10/15/86, I determined that they
should be:

- 344 + 318 — black check + yellow
3897 + 695 — black + black
✓ 3853 + 3884 — grizzle + red
✓ 3854 + 3871 — dark grizzle + grizzle
✓ 350 + 3869 — blue bar + grizzle
✓ 340 + 3877 — blue bar + blue bar
+ 343 — + black

(by mid-april, the tanks are
empty or full)

on 11/11/86, I determined that the breeding
pairs should be:

- black check black 83
344 + 695 } new pairing from
black yellow 10-15-86
3897 + 318 }
3853 + 3884 } same as on
3854 + 3871 } 10-15-86
350 + 3869 }
340 + 3877 }

343, Hermer + Thibe — out of production
